

With this text you can test

Source:

[Goudin, P. \(2016\). *The Cost of Non-Europe in the Sharing Economy: Economic, Social and Legal Challenges and Opportunities*, Study \(pdf\)](#)

Caution: This text
itself is no
plagiarism! Only if
you pretend it is
yours.

Finally, environmental concerns also explain the increased use of the sharing economy. Sharing underutilised assets, reducing waste and promoting the transition to a more environmentally friendly economy are initiatives which have gained increasing support especially amongst younger people.

Will the software know that it is plagiarism if you use it in your term paper without reference?

-> Caution: Plagiarism Scans advance and feed their indices. Even if something is not detected today, it can be found out as plagiarism tomorrow.->
